EVIDENCES OF HIS SUCCESS IN CURING
CATARRH,
And other Chronic Diseases that have Resisted the Ordinary Modes of Treatment.

Letter from B. F. Murdock, Esq., Editor of the San Jose Daily Patriot.

SAN FRANCISCO, CAL., NEW YEAR'S DAY, 1871.

DR. ABORN, San Jose—Dear Sir: I have felt that our business and social relations for the last ten months were of such a character as to warrant me in addressing you this testimonial of my esteem for you, professionally and socially. Your remarkable success in the treatment of my son, Frank, a youth just entering on manhood, who had been afflicted for some time with an obstinate catarrh and throat disease, was but an additional proof of the distinguished reputation you had achieved in your profession before your advent to California, and disposed me to repose that reliance upon your scientific skill in the treatment of your specialties, which was so fully sustained by the success of our prescriptions in all cases under your treatment in this city and neighborhood.

Allow me, also, to express my thanks for the liberal and gentlemanly spirit you displayed in all of our business relations. As the proprietor of the San Jose *Daily Patriot*, I published for you many advertisements, all of which were promptly paid for, and in a manner peculiarly agreeable.

I do not know whether this letter will be of any use to you, but I have felt impelled to write it, as well as to assure you of my sincere esteem and cordial wishes for your happiness and prosperity.

Respectfully yours, etc.,
F. B. MURDOCK,
Editor and Proprietor *San Jose Daily Patriot*.

Letter from Wm. B. Lake, Esq.

SAN FRANCISCO, January 19, 1871.

DR. ABORN—Dear Sir: Permit me to add my testimony to the numerous public assurances you have received while here, of your skill and success in the treatment of those diseases which you make specialties in your practice.

My boy, now eleven years of age, had been seriously troubled for several years, with catarrh, when put under your treatment; when he was immediately relieved, and has been steadily improving ever since, until now he seems almost entirely recovered, and we feel we owe to your skill his rapid convalescence, and I assure you your name will ever be held in grateful remembrance by your young patient, and his parents and friends.

Yours respectfully, WM. B. LAKE,
No. 1028 Hyde Street, San Francisco.

LAW OFFICE OF R. P. & JAMES CLEMENT, No. 51 Exchange Building, SAN FRANCISCO, CAL., January 22, 1871.

DR. ABORN—Dear Sir: Understanding that you are about terminating your residence and practice in this city, I have thought that possibly you might be pleased to know that the little school girl, Mary Morris, whom you treated some months ago at my request, and who, you will remember, was nearly deaf and seriously afflicted with some bronchial trouble when she went to you, is now ENTIRELY CURED, both of deafness and bronchial affection, and declares that she was virtually cured on her first visit to you. She and her parents are very grateful to you, and think that it is wholly due to your skill that her hearing and health are restored.

Yours truly, R. P. CLEMENT.

Card from Charles N. Fox, Esq.

[Office of Campbell, Fox & Campbell, Attorneys and Counselors at Law, No. 528 Clay street.]
SAN FRANCISCO, Feb. 17th, 1870.

Were it not for the good which I hope it may have done to suffering humanity, by informing them where they could find relief, I should regret having given Dr. Aborn my little testimonial of the tenth of January, for the demands made upon my time, in answering inquiries in regard to him, have been more numerous than profitable to me; and still they come.

To save the necessity for further personal application, let me say to those who care for my opinion, that time has only strengthened my first favorable opinion of Dr. Aborn, and my confidence in the permanency of the cure effected by him. All my difficulty arose from catarrh, which had become of a serious character, affecting the hearing and the throat, giving me at times acute pains, and at others rumbling sounds in the ears, frequent headaches, and so seriously affecting the bronchial tubes as to sometimes disable me from public speaking. It is also gone, and the change was produced, not by any species of charlatanism, or many stupor of the Doctor, nor by the absurd practice of putting medicines into the stomach which was not affected, but by the skillful application of medicinal remedies directly to the parts which were diseased. I have found the Doctor a gentleman in his intercourse and business, and the judgment that I have formed of him professionally is, that he is a regular physician, thoroughly acquainted with the anatomy of the human body, and possessing a remarkable degree of skill in the treatment of those diseases which he makes his speciality.

CHAS. N. FOX.

Another Wonderful Cure of Asthma and Bronchitis, after all other Methods had Failed.

SAN JOSE, March 6, 1870.

This is to certify, that I have been afflicted for over three years with Asthma and Bronchitis, and had tried every means in my power to effect a cure, and was told by my family physician (an honest and good doctor) that I could not be cured; and I became so weak that I could scarcely walk up a flight of stairs, and I happened to see a card from Lawyer Houghton, stating that he was being treated by Dr. Aborn, No. 22 Kearny street, San Francisco, and was getting great relief, and I thought I would go and see the Doctor; but I had little hope of getting relief, much less a cure. That was about the fifteenth of January, 1870, and to-day I claim to be a well man. I am fifty-nine years old. My mother and sister died with the same disease. I send this card, unsolicited, to Dr. Aborn, thinking that it might meet the eye of some of my acquaintances that might be suffering in the same way.

J. W. HARDWICK.

DR. ABORN

Has WONDERFUL SUCCESS in curing CHRONIC DISEASES after the usual routine of the profession have failed, and the many testimonials in his possession from prominent and influential men who are well known will substantially prove.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to any painful or unpleasant operations; his treatment is mild, and safe for the most delicate child. The afflicted are hereby informed, that after the first visit, for many of the diseases which he makes a speciality, they can take the treatment home and use it until cured, without pain or interruption to their usual avocation.

DR. ABORN
ON
CATARRH!!

[DISEASE TENDING TO CONSUMPTION.]

This is a chronic affection of the mucous membrane of the nostrils or the throat, originating in irritation or inflammation, and attended by more or less discharge. It is one of the most common, most disgusting, and finally most destructive of diseases incident to the variable climate of our northern latitude.

In its early stages catarrh fails to attract the patient's attention, so insidious is its approach. This is an unfortunate circumstance, because the most favorable period for treatment is thus unimproved, and because of the peculiar disposition of this disease to extend upward to the frontal sinuses, backward through the Eustachian tubes to the middle ears, and down through the larynx, trachea, and bronchia, to the air cells of the lungs.

The discharge from the affected part is at first a clear fluid, which may escape observation unless it chance to be of a more than usual acrid character. As time goes on this gives place to a fluid that is thicker, and of a yellowish green color, and still later this may be succeeded by thick flakes or scales.

In all the more advanced stages the discharge is generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his sense of smell remains. This annoyance from the odor becomes almost beyond endurance, when, as sometimes happens, the delicate bones of the nose become diseased.

Some cases early assume the character of Dry Catarrh. There is then a feeling of uneasiness, heat and stiffness in the nostrils, which are often (one or both of them) closed by thickening of the mucous membrane, and thus a difficulty of breathing becomes a prominent symptom.

On examining the nostrils in Chronic Catarrh with instruments specially adapted to that purpose, we find their lining membrane thickened and of a deeper color than in health. There are seen little points of ulceration, upon which the secretion becomes hardened and forms crusts. When these are picked off the diseased surface is irritated, and frequently bleeds profusely.

In each case of Catarrh the prominent symptoms are determined by the direction in which the disease extends. If this be upward there may be pain over and between the eyes, obstruction of the lachrymal ducts, causing the tears to flow over the cheeks, and possibly ophthalmia—inflammation of the eyes. If backward, there will be thickening of the walls of the Eustachian tubes, and consequent tendency to their obstruction, inflammation of the middle ear, buzzing sounds in the head, and impairment of hearing. When the extension is downward, the voice becomes husky or whispering and unmanageable; cough comes on, with expectoration and emaciation, to be followed too often by Consumption and Death.

In cases where the bones of the nose become diseased, not only is the offensiveness of the breath increased, but there is a liability to serious personal deformities among which are flattening of the nose.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion, and loss of appetite. Debility, paleness, lassitude, headache and disturbance of mind soon follow. In some instances the mental affection is one of irritability, the patient being suddenly annoyed by all the little perplexities of life. In others, the prominent feeling is that of the melancholy or depression of spirits, which the invalid can see no hope for himself or his affairs.

Allusion has been made to the extension of Catarrh by continuity of surface along the natural air passages to the substance of the lungs, thus causing Consumption and Death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions of the diseased surface. By such air the blood cannot be properly purified and made fit to impart healthy vigor in its unending circuit to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted to make early application for relief.

The treatment of Catarrh is in part constitutional, whereby the energies of the whole system are called to aid in expelling its destructive enemy. It is in part local, whereby the discharge is made less offensive, diminished and finally arrested, and whereby the ulcerated surface is healed and restored to its normal condition.

By means of new and ingenious apparatus, Dr. Aborn is able in Catarrh and all other affections of the respiratory organs, to apply his remedies directly to the diseased localities. Treatment is thus made more efficient as well as less disagreeable. In many cases the first applications of the topical treatment will change the character of the disease and materially purify the breath.

A FEW REMARKS ON

DISEASES OF THE EAR.

It is a well known fact that Diseases of the Ear are among the most frequent and most callous affections to which the human system is exposed, and that Deafness, or impairment of the hearing, is a lamentable misfortune alike to the public instructor, the military officer, and the government official, as each is obliged to yield his position to another. Equal unfortunate is the loss of hearing to mothers, who have the moral correction of the speech of offspring; and to that offspring in after life, thus cut off from the principal source through which both moral training and intellectual development are conveyed. And yet this function of hearing—the most soful and pleasure-giving of all our senses—is frequently sacrificed by want of attention to the early symptoms of disease, when judicious treatment could readily affect a cure.

True, treatment is often deferred because there is no manifest pain, and hence no danger is anticipated; or because patients are taught by physicians to believe that their disease is not remediable; or because this department of medicine has been neglected, and physicians, though skilled in other departments, know but little of aural surgery, and hence patients are generally discouraged by them.

In our increased and extended anatomical and physiological knowledge, all just grounds for want of confidence now have entirely ceased to exist, as no department in medical science is more thoroughly and successfully treated than is this branch by Dr. Aborn.

The number of ear patients is constantly increasing with the increase of population, as they originate in so many diseases incident to childhood—as measles, scarlet fever, whooping-cough, &c., &c.

The latter disease is particularly prone to give rise to affections of the ear. Among the most troublesome (besides impairment of hearing) is one called otorrhœa, "a running from the ear," not strictly a disease, but a symptom of a diseased condition, which often becomes exceedingly offensive.

If this discharge continues without limit, which it is prone to do, it is liable to destroy the "drum" and delicate ossicles of the ear, and finally to produce caries of the bony walls. The popular notion that stopping this discharge endangers some other organ, or the life of the patient, should be corrected. There is far more peril in letting it alone than in curing it. While it continues, the discharge is a constant drain upon the constitution; but the health, on the contrary, is vastly improved by its eradication. Its persistence often indicates a scrofulous diathesis in the system.

Certainly, it is safe to change that morbid condition; to improve the general system; to remove the cause of disease, and the effect then ceases without danger. Nay, more, in the cure of otorrhœa, as in ozena, or a "running from the nose," the consumptive tendency is also cured. Thus rational cure never substitutes one disease for another—never compromises the laws of life.

Now, in order to eradicate this common prejudice, and disprove the false conceptions of both patient and physician, I have repeatedly published, during a series of years, certificates of cures of deafness, and from persons of high social, clerical and political position, as so many indisputable facts of the success of my improved method of treating cases of ear disease, often of seemingly hopeless character.

EASTERN DATES TO AUGUST 22.

EASTERN STATES.

Attempted Suicide.

LONG BRANCH, August 21.—This morning Dr. H. T. Helmbold of New York, engaged a hack at the Arcade Hotel, borrowing a double barrelled shotgun from the proprietors, and told the driver to go along the beach, as he wished to shoot some sand snipe. After going about a mile, he alighted from the carriage, stepped a short distance, placed the butt of the gun on the ground, and the muzzle under his chin. Being a very short man he had to stretch to reach the trigger, and in doing this the muzzle of the gun was thrown one side and the charge passed alongside his face, merely singing it. The driver immediately ran towards the doctor, but before he could reach him the doctor discharged the second barrel in the same manner, not being injured. He then got him into the hack and drove back to Arcade Hotel, where the doctor washed the powder from his face and drove home. The rumor that the doctor attempted to shoot himself with a pistol after reaching his room, is without foundation.

Fire at Williamsport.

WILLIAMSPORT, Pa., Aug. 21.—Fire broke out last night in a stable near the Waverly House. The flames soon spread, and 30 buildings were consumed, including the Waverly House, ex-Gov. Packer's residence, the Mulberry street church, and many stores and private dwellings. Loss $125,000. Insurance $75,000.

Precautions Against Cholera.

WASHINGTON, Aug. 21.—The Secretary of the Navy has given the quarantine commissioners of New York two ships, the *Delaware* and *Alliance*, to be anchored off the quarantine on the lower bay for the temporary detention of persons arriving who have been exposed to cholera.

New York Dispatches.

NEW YORK, August 21.—In the case of the *Starbuck* explosion, investigation of which was commenced by the Coroner to-day, found the boiler so defective that water and steam actually poured through an aperture found in it. It had fifteen inside patches; one of these giving way, caused the accident.

Forty suits for damages are commenced against the Staten Island Ferry Company by relatives of victims of the late disaster.

Helmbold denies that he attempted to commit suicide at Long Branch to-day. He says that while gunning, having discharged one barrel, he put his mouth to the barrel to clear it and accidentally discharged the other barrel by touching the cock with his knee. His injuries are very slight.

The Coroner's jury in the case of Geo. Williams, killed by the explosion of the boiler of the tug boat *Starbuck*, brought a verdict of manslaughter against S. Clark Stratton, Government Inspector of Boilers, and engineer George H. Mills. Warrants are issued for the arrest of Mills and Stratton.

Clearings amount to forty-eight millions. Sterling, 8½; Western Union, 60½; Mariposa, 3½; Preferred, 8; Wells, Fargo, 47; Pacific Mail, 49½; New York Central, 97¾; Erie, 29¼.

CHICAGO, August 21.—Isadore M. Jjborg, editor of the Scandinavian paper, reported missing, turned up to-day alive and well.

WASHINGTON CITY.

Miscellaneous News.

WASHINGTON, August 21.—The special order, recently issued at the War Department, retiring Col. George Stoneman with the rank of Major General, is revoked by the President and he is retired on his rank as Colonel. The original order was made under misapprehension, by the Board, in the belief that his incapacity resulted from wounds, which was not the case.

The President has appointed Frederick Drew as Collector at Puget Sound.

Arrangements are concluded between the United States and Germany, taking effect on October 1st, which reduces the rate of international postage on prepaid letters, if exchanged between the two countries by closed mail, via England, from 10 to 7 cents, each half ounce or under; if unpaid, letters so exchanged are charged double prepaid rates; for insufficiently paid letters, the same with postage on unpaid letters, after deducting the amount prepaid.

In response to several applications from distillers, indebted to the Government for unpaid taxes, asking for an extension of the time of payment, with the consent of bondsmen, the Commissioner of Internal Revenue ruled that no authority exists under the law granting an extension.

NEW YORK, August 21.—A Washington special says Boutwell has declared himself in favor of Grant's renomination.

French Affairs.

PARIS, August 21.—The Assembly Committee on the Budget agreed to fix the salary of Thiers at half a million francs with credit in addition for ordinary expenses.

A bill providing for the dissolution of the present Assembly will soon be brought forward.

The Deputies of the Left are preparing a manifesto demanding the restoration of the Constitution of 1848.

PARIS, August 21.—In the Assembly to-day a stormy discussion was aroused by the irreligious expressions of some Deputies.

Dispatch from London.

LONDON, August 21.—An election will be held on Thursday at East Surrey to fill the vacancy in the Parliament occasioned by the death of Chas. Buxton.

Reinforcements of French troops arrived at Algeria.

Applications for the five per cent. fund loan of the United States sent in from London and the continent to Jay Cooke, McCulloch & Co., in advance of the opening of the bank to-morrow, already amount to $20,000,000, or more than quarter of the whole amount allotted to Europe. The bonds are on stock exchange at 1¼ and 1½ cents premium.

The International Society.

NEW YORK, August 21.—A letter in the *Journal de Bruxelles* states that a meeting of the Internationals took place at Genoa, at which thirty companies were represented. Something was said about giving other capitals of Europe a taste of the Communist *regime*, which Paris and vicinity have enjoyed.

German Affairs.

MUNICH, August 21.—A new ministry is formed with Hegmenberg as President.

BERLIN, August 21.—Carpenters in this city have struck for an increase of 25 per cent. in wages and a reduction of a day's work to nine hours and a-half.

From a Chicago dispatch, Aug. 16th, we take this: The banquet at the Tremont House, given in honor of the 100th anniversary of the birthday of Sir Walter Scott, closed about 2 o'clock this morning. The affair was one of the most marked features of this city. About 200 guests sat down to the tables, very few of whom left until the banquet was completed. Ex-Governor Oglesby responded to the toast, "The President of the United States." The representative men of the city were present. To-night will close the festivities of the occasion by the production of the play of "The Heart of Midlothian."

A Long Branch letter says: "The lack of men everywhere here is a prolific source of grief to the complimentary half of the world. Landlords are besought for beaux. Each and every feminine arrival is looked upon with increasing disgust. Women sit in continuous rows upon piazzas, and border parlors like so many wall flowers. They were in numbers at last night's hop 'as' seven to one. They danced in pairs, promenaded in couples and simpered to each other."

The Philadelphia *Inquirer's* Harrisburg special says the report that Geo. C. Evans, State War Claim Agent, is a defaulter, is unjust; that Governor Geary says Evans has been at the capital several times to settle, but was unable to do so, owing to the absence of the Auditor General; that he is ready to settle now. This is the case recently mentioned in our dispatches.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Murder Case in Ohio.

LONDON, Ohio, August 22.—The preliminary examination of Angelina Colburn, charged with poisoning her former husband, commenced yesterday. The only witness examined was Prof. Wormley, who examined the stomach of deceased. His testimony contained nothing not heretofore published. Witness, however, said that a critical examination of the whole body might assist in determining the question whether deceased was poisoned or not. He also said there was no case on record of the introduction of arsenic into a dead body. Motion was made by prosecution and acquiesced in by defendants that the Coroner be ordered to re-exhume the body of Buffenbarger with a view to another examination. The Justice took the matter under consideration.

Tragedy in Missouri.

ST. LOUIS, August 22.—A terrible affray occurred at Harrisville, Missouri, on Saturday. Tom Sahide, a noted desperado and ex-bushwhacker, came to town drunk, ran a muck through the streets with a revolver, and shot and killed two inoffensive citizens before any one was able to shoot him, though a large party was after him. A well directed load of buckshot finally finished him.

Kentucky Legislature — Democratic Tribulation in Ohio.

LOUISVILLE, August 22.—Returns received indicate that the Kentucky Legislature stands as follows: House—82 Democrats, and 18 Republicans; Senate—35 Democrats, and 3 Republicans.

The *Courier-Journal* this morning has a letter from Cincinnati, which says: A rumor prevails here that General McCook, Democratic candidate for Governor, will be compelled to withdraw from the ticket as he has it from the canvass. It is said he is partially deranged. Should McCook withdraw, an effort will be made to induce Gen. Long to take his place, but there are doubts as to the success of the movement.

President Grant's Opinion.

NEW YORK, August 22.—President Grant informed an interviewer at Long Branch that he thinks there is no lack of harmony among New York Republicans, as the discord which some men try to make always clears up when an election comes; that New Orleans muddle is beyond his fathoming; that the Tammany corruption and Orange riots will defeat the Democratic party in New York; and that if we cannot get from the Coreans a treaty which will protect our sailors, we won't force a treaty from them, but teach them lessons that will probably protect our sailors just as well.

Miscellaneous.

LONDON, August 22.—The *Times* says a new loan will have to be obtained before the city of Paris can be restored to the condition it was in before the war.

A French deputation, headed by Count Flavigny, who recently landed in Ireland, have crossed to England and will visit the city of York. They are enthusiastically received everywhere. The object of their visit to the United Kingdom is personally to return the thanks of the French people for aid so freely given by Englishmen and Irishmen for the wounded and suffering French during the war.

A grand fete is to be held at the Crystal Palace, Sydenham, to celebrate the union of Germany.

Sir Edward Thornton, British Envoy to Washington, who returned home on leave of absence, a few days ago, has gone to Balmoral to take the oath to the Queen as a member of Her Majesty's Privy Council.

French Affairs.

VERSAILLES, August 22.—It is reported that a compromise has been made in the matter of the prolongation of Thiers' term. He is to be entitled President and his term to endure until the Assembly is dissolved.

Five supplementary municipal elections will be held soon.

Cholera in Germany.

BERLIN, Aug. 22.—Ravages of cholera are steadily increasing at Konigsberg. The disease has also appeared at Dantz, but no cases have occurred in Stettin, and South Prussia is still free from the disease.

Pestilence and Famine in Persia.

LONDON, Aug. 22.—Persian news contradicting the Levant *Herald*, declares that the famine and pestilence are worse than ever. There are 7,000 victims in Ispahan, one third of the population. Petalls are sickening.

The Emperors of Austria and Germany.

VIENNA, Aug. 22.—It is stated that the Emperor Francis Joseph will not at present go to Bodegastin, but will visit the Emperor William of Germany at a future time.

Spanish Affairs.

MADRID, Aug. 22.—The Crown Prince Humbert of Italy arrived at Madrid to visit his brother, King Amadeus. It is announced that the Ministry will establish Consulates General in all Spanish American republics.

Great Success of the U. S. Loan.

LONDON, Aug. 22.—The introduction of seventy-five million dollars of the United States five per cent. loan to-day by Jay Cook, McCulloch & Co., was a marked success, subscriptions exceeding in a single day the entire amount. On the continental subscriptions are reported large. Books will be closed to-morrow instead of Thursday.

The Prince of Wales, bound from Hong Kong to Bankok, by steam, has foundered at sea. Fifty persons were lost.

Italy takes precautionary measures against cholera.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Aug. 22.—Fourteen knights entered for the tournament at the Agricultural Park to-day, but their success in catching the rings was noticed marked as in catching falls. Ten runs are yet to be made for the trotting race, mile heats, 3 in 5. Purse, $1,000. There were six entries; May Howard, Highland Mary, Fred Chieftain, Traveler, Forest and Lady Emma. In pools the Sacramento mare May Howard was the first favorite. The race proved unexpectedly well contested. The first heat was won by May Howard, time 2:43; Lady Emma and Chieftain distanced. Second heat, May Howard 2:43; Forest distanced; Third, Fred 2:45½; Fourth, Highland Mary, 2:44; Fifth, May Howard, 2:44½. There was any amount of jockeying and the judges distributed fines of from five to fifty dollars right and left, as plentiful as the five cent prizes in the Nevada lottery.

A liberal reward will be offered by Wells, Fargo & Co. for the arrest or killing of the robbers who stopped the Red Bluff stage this forenoon. It is conjectured by some that this may be the same gang who made a murderous attack upon the Cloverdale stage last week.

By energetic drumming and the announcement that Frank Pixley would deliver an address on the political situation, straight-out Republicans have filled Pacific Hall this evening. It is not thought at present that he will vote the ticket that will be put in nomination this evening.

Henry Greg, apparently a German, aged 40 years, who has been selling patent cough drops and stencilling signs on fences, was brought to the calaboose drunk. He had hardly entered the prison when he fell on the floor in a fit, and died in a few minutes. The remains were taken in charge by the Coroner.

SAN FRANCISCO, Aug. 22.—Passed west, G. Hughes and wife, Victoria.

The levying of $10 assessment on Norcross sent that stock up $5 to-day. There is talk of assessing Corry, and that stock is absolutely stiffened in anticipation of it. 1,600,000 pounds of tea were shipped East by rail last week, more being sent daily.

M. F. Butler, pioneer architect on the Pacific coast, cousin of Ben. Butler, died yesterday after a long illness.

Despite the large attendance at the tournament at the Agricultural Park to-day, it was rather a tame affair. The races were lively and much money changed hands.

General LaGrange, Brick Pomeroy and Col. Scott amicably settled their difficulty late last night.

Oakland is quiet and undisturbed to-day.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, Aug. 22.—The grasshoppers have destroyed half the crop of Cucamongo Vineyard. The vintage this year will be about 40,000 gallons.

Trains from Cerro Gordo have brought 1,026 bars base bullion. A large part of it is shipped to the Union Smelting Works, including 170 bars valued at $3,000 each.

SONOMA, August 22.—Booth is speaking to a large and enthusiastic meeting on the plaza.

SACRAMENTO, August 22.—Hannibal Hamlin has telegraphed that he will be here at the Republican meeting next Friday. Several thousand persons from the interior are expected, as 75 cars on the railroad conducting here have been contracted for.

The Catholic Ladies' Fair opened this evening with favorable indications of being a success.

Two hundred and twenty-two cars of iron, for the Southern Pacific Railroad, were arrived to-day from the East and forwarded to San Jose.

The Exempt Firemen's Association have elected the following officers: President, W. L. Herndon; Vice President, Jos. Davis; Treasurer, George Putnam; Secretary, W. F. Belmley.

Jas. C. Goode advertises that he is a candidate for District Attorney. He believes he was crowded out of the nomination in the Democratic County Convention. This step occasions much dissatisfaction, and will insure the election of the Republican nominee for that office.

Last night the French Republicans held a meeting and passed a ... resolutions ... endorsing his Government and ... that soldiers wounded in defense of their country have preference in appointments to offices. An engrossed copy will be sent to President Thiers at his official residence, by a ... To-night they held another meeting and resolved to celebrate the establishment of the present French Republic by a grand banquet on the 4th of September. The meeting to-night was intended as preliminary to the formation of a Democratic French club, but the idea was abandoned, they say, because the French are more enthusiastically in favor of the Republican party. The intention was good, but sufficient numbers being wanting to make an appreciable showing is probably the cause for changing the programme.

RED BLUFFS, Aug. 22.—The San Francisco down stage was robbed this morning near Cottonwood, by four men masked and armed with Henry rifles. They took two Wells, Fargo & Co.'s treasure boxes, and ordered the driver to go on. There was one passenger, who was not molested. Kelly, Express Agent, and the sheriff, have gone to the scene of the robbery. No further particulars.

SAN DIEGO, August 22.—Last night the house of P. Lassain was broken into and robbed of $200. No clue to the burglars.

One of the Magdalena victims arrived here to-day, having come afoot. He confirms the reports already current. The company broke every promise and left its dependents to make their way out of the country the best way they could.

The Daily Oregonian.

WEDNESDAY MORNING, AUGUST 23, 1871.

Democratic Testimony.

Among the journals of New York which condemn the ring frauds that have produced so tremendous a sensation throught the country, is the *Journal of Commerce*, a Democratic paper of respectability and long standing. The present city officials, who are the perpetrators of these frauds, put an act through the Legislature last winter extending their terms of office to January, 1873; they therefore snap their fingers in the face of an outraged public who express indignation at being so heavily plundered, and coolly ask that public what they are going to do about it? The rascals have yet nearly two years' tenure of office, and they boast that before the end of that time this whole affair will be forgotten. But the *Journal of Commerce* comes forward with a suggestion which it thinks will meet the difficulty. It urges the election of an honest Common Council at the municipal election this fall, by which the Mayor and his fellow thieves could be impeached and driven from office. The agitation in the city is tremendous, and is increasing rather than diminishing. It is telling with powerful affect against the Democratic party throughout the Union,—the principal campaign documents used by the Republicans being proofs of the tremendous frauds perpetrated by the Democratic rulers of New York. George Opdyke, Vice President of the New York Chamber of Commerce, in a recent letter to the Mayor, reminded him that the accuracy of the figures exposing the frauds "has stood unchallenged for weeks," and urging him to give the public the accounts in full. This, however, has not yet been done, though often promised. That it has not been done is of itself a confession that something is wrong.

Another Democratic paper—we mean Brick Pomeroy's *Democrat*—returns to the charge upon the ring, and assails the thieves in a most merciless way. The accounts, it says, show that the "outlay for government has grown in the city of New York from thirty-five millions in 1860, and forty-one millions in 1866, to *ninety-one millions* in 1870." One feature of the systematic swindling is thus given by the *Democrat*:

Mr. Sweeny buys a block of houses on Broadway and Thirty-fourth street, and directly an appropriation of several hundred thousand dollars of the public money is made to widen Broadway, in order to enhance the value of Sweeny's block; Mr. Connolly buys a farm on the Harlem river, and presto, several millions are spent in improving that stream and the environs, in order to convert Connolly's farm into city lots, worth thousands of dollars each; Astor disgraces himself by signing an experts statement used to create the false impression that Connolly and the rest of the Ring are honest officers, and is paid for his dirty work by having the streets and avenues upon which his property stands improved with money belonging to the public. In effect, Astor is financed with hush-money in the shape of city improvements.

Of the money actually stolen by the ring, it is believed that many millions are held in ... for use in the Presidential election in different States next year, in order to transfer the power of this thieving gang to Washington, and give it the national revenues to prey upon. It is this which makes the consideration of this subject a matter of national importance. The New York Times unearthed frauds amounting to about $10,000,000, and it declares that it has only touched the surface of them. It succeeded in getting hold of only a few of the jobs of Tammany, but what it has shown us are in all probability but specimens of very many more. If there has been a swindle of $10,000,000 in a single job, how vast must be the aggregate of all?

Water Works Again.

A recent number of the *Daily Democrat*, published at Grand Rapids (Mich.), contains a report of a Committee of the Common Council of that city on the Holly system of water supply. This Committee had visited Peoria (Ill.), Indianapolis (Ind.), and Kalamazoo (Mich.), with a view of examining the Holly works in operation at those cities, and found them in every respect perfect and satisfactory. At Peoria fire hydrants situated on the bluffs four miles from the pumps, at an elevation of 200 feet, were found to throw water from 100 to 125 feet high, which is all that could be desired for this city. At Peoria the sentiment of the people was one of universal approval of the system. At Indianapolis the same fact was observed. The works were found to answer fully every want. At Kalamazoo the Mayor informed the Committee that "if there was not a dollar received from water the entire expense of operating the works and the interest on the bonds would be fully saved in reduced rates of insurance, and that the people of Kalamazoo without exception were satisfied with the works, and could not be induced to dispense with them."

An engineer who has examined the ground and general situation at Grand Rapids estimates that the cost of Holly works at that place would be $200,000. This would include a brick acqueduct 13,000 feet long, and fifteen miles of mains.

Little has been said here for some weeks on this important subject. It is to be hoped that the interest that was manifested in it some time ago will not be allowed to flag. The public, certainly, feel as much interest in it as ever. We do not wish to be considered an advocate of the Holly plan against every other, but we cannot help remarking that at every place where it has been tried it appears to give the most complete satisfaction.

Mr. B. B. Taylor, recently arrived from Missouri, has taken the editorial chair in the *Herald* office. The precise kind of Democracy to be advocated under the new management—whether old or new departure—is not yet announced. Probably it will discover itself in a few days. Mr. Taylor goes at his work with the style of a practised writer. We are glad to read in his introductory article that he desires to observe all those amenities which add grace to journalism and dignify the editorial profession.

The *Herald* is troubling itself about a defalcation at Olympia that did *not* occur, and thinks by this means to rebut the proofs of Democratic robberies in New York. A singularly futile and ill-judged attempt. The astounding frauds in New York are a matter of general discussion all over the country; and the Democratic party, by defending the rascals of Tammany, makes itself responsible for their acts.

The tide is setting so strongly in favor of the Republican ticket that Democrats refuse to make bets unless large odds are given. Betting is a vulgar style of argument, but it sometimes shows how things are tending.

John B. Weller, the Democratic war-horse, refuses to stump the State for Haight, because he says the election is already virtually decided in favor of Booth.

OREGON.

Many new comers are arriving in Douglas Co.

An old toper at Roseburg, who absent mindedly swallowed a glass of cold water, was thrown into spasms, and complained bitterly that such an article should lay around loose to do the unwary harm.

Mr. Chauncey Nye writes to the Jacksonville *Sentinel* that the roads and bridges on the upper Rogue river are being put in good condition by the Supervisor. Four wagons of immigrants, direct from Kentucky, had just come in, bound for Coos county. Dear and bear were plentiful; also huckleberries were abundant.

The *Statesman* learns that stock owners at Ochoco have been able to save but very little hay, the rye grass having almost failed owing to the extraordinary dry season. They are apprehensive lest a hard winter shall come upon them and prove disastrous, as it would to the stock of many districts East of the Mountains where the hay crop has been cut off.

Last Saturday a little son of Wm. Murphy of Howell Prairie, Marion county, while playing with some matches, set his father's barn on fire, which contained 900 bushels of wheat and 100 bushels of oats of last year. The loss consists of the grain mentioned, the buildings, valued at $1,200, and twenty tons of hay, gang plows, drill, and many other implements, and several sets of harness. The wagon, hack and horses were saved. The little boy was so terrified that he lost his senses, and was found some hours afterwards half a mile distant, lying on his face. He had not recovered yesterday morning, and only remembers that he had a big fire. Mr. Murphy has lost, in all, property valued at three thousand dollars. So says the *Statesman*.

THE TERRITORIES.

Near Colville on the 31st ult., a young man named McKeegan was shot and killed by a rifle in the hands of his companion, whose horse stumbled as the two were riding together, causing the discharge of the piece.

The Auditor of Owyhee county, I. T., reports the assessable property of the county at $681,264. It seems to us that this is a small showing for a county wherein are located the richest quartz mines in Idaho Territory, and which yield $30,000 to $40,000 per week.

A proposition is submitted to the legal voters of Walla Walla, to be voted upon on the 18th of September next, to issue bonds to the amount of $300,000 for the Columbia river and Walla Walla railroad, with interest at 8 per cent. It is believed the proposition will be accepted.

It is asserted that Judge McFadden will be the next Democratic candidate for delegate to Congress from Washington Territory.

The Commissioners of Thurston county, W. T., have decided that under the Territorial law applicants for liquor licenses must procure the signatures of a majority of *all* the adult inhabitants living in the precinct where the liquor is to be sold. Under this decision the Olympia saloon keepers were unable to obtain licenses.

BRITISH COLUMBIA.

The railroad surveying party is in the field, but not making much progress.

Mr. William Shakespeare is at Nanaimo. He has changed his occupation and is now making political speeches.

A few days ago, the steamer *Emily Harris* blew up near Nanaimo. Capt. Frain, who was in charge of the vessel, a passenger, name unknown, and a Chinaman were lost.

The *Abend Post* (German Republican) gives a very hearty support to the Taxpayers' ticket of San Francisco, and compliments the Nominating Convention upon the result of their labors. It says the candidates are true and reliable men, and that as between the two tickets—the Democratic and Taxpayers'—there can be no doubt as to which all good citizens will support. It is Ring and anti-Ring, corruption and anti-corruption. The *Post* calls upon the German voters to throw their influence against municipal corruption and the party representing it. There can be little doubt but that the great body of German-Americans will vote the Taxpayers' ticket. Both the *Post* and the German *Demokrat* publish the platform and ticket in full.

The Republicans of Sacramento will hold a monster mass meeting on the 25th inst., when Booth will speak. Delegations from the surrounding counties will attend, excursion trains being run on all the roads.

REMARKABLE CURE OF MRS. HOOVER.

Tualatin Plains, Washington Co., Oregon, July 22, 1871.

Dr. A. M. Loryea—I have been troubled with Rheumatism for the past *twelve years*; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

U. S. MARSHAL'S NOTICE.—UNITED STATES of America, District of Oregon, SS.—Whereas an order was made on the 21st day of August, 1871, by the Hon. Matthew P. Deady, Judge of the District Court of the United States for the District of Oregon, in the cause therein pending wherein Isaac Thomas is libellant against the Steamboat "Webfoot No. 2," that the said steamboat, her machinery, tackle, apparel and furniture should be sold at public auction by the Marshal, upon three days notice of such sale, and that the proceeds of such sale be returned to the Clerk of said Court. Therefore, I hereby give notice that, in pursuance of such order, I will, on Saturday, the 26th day of August, A. D. 1871, at 10 o'clock in the forenoon of that day, at the foot of Morrison street, in the city of Portland, county of Multnomah and District aforesaid, proceed to sell the said steamboat "Webfoot No. 2," her machinery, tackle, apparel and furniture, at public auction to the highest bidder therefor, for cash in hand in U. S. Currency.

Portland, Oregon, August 22, 1871.

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

Portland, Oregon, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption, date, No. ——.

To the Land Agent of the European and Oregon Land Company:

Sir: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market, provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent, by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, NO. ——.

This is to certify that —— of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of promises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed) Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent disinterested party, under oath, at their actual, present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual installments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use, and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

CITY.

HUNTING THE TERMINUS.—A good story is told on Gen. Sprague, by a gentleman just from Kalama. A few days since an elderly spinster who gave her name as Miss So-and-so, called at the office of the North Pacific railroad and enquired for Gen. Sprague. That gentleman made his appearance and politely asked the lady what business she wanted with him. After some hesitation and small apparent embarrassment, she began: "Well, you see, General, you know, General, that, that I have got a *little* bit of property over on the Sound, and, General, I want to know just where that what-you-call-it, yes, the terminus is going to be located. Now, if you will be so very kind and obliging to a poor, defenseless critter like myself, General, and tell me exactly where it is to be located, I will be under great obligations to you. They say that a woman can't keep a secret, but if you will confide in me, I will keep the secret profoundly."

General Sprague, as may well be supposed, was slightly "taken back." But he rallied himself, and putting on a serio-comic face, he said: "Well, my dear madam, that is a very grave question, and one that I cannot answer at present. If you will leave me your address, as soon as I ascertain the precise location of the terminus, I will hunt you up at once and let you know."

The lady left "her card" and departed, a sadder if not a wiser woman. It is needless to remark that the lady is still waiting to be hunted up and told where the what-you-call-it is to be located.

BELIEVE THE UNFORTUNATE AND NEEDY.—A cotemporary makes the following charitable remarks in regard to the late fire at the Dalles: From the Dalles information reaches us that among the sufferers by the recent calamitous fire in that place, were some who are now in actually destitute condition. Their little homes have been swept away, and with them all else, nearly, of any value, which they possessed. The generous and sympathising in their own city have contributed to the wants of these unfortunate ones, with money, provisions and clothing; but the general loss has been too heavy for much assistance from that quarter, and the number of sufferers has been exceedingly large for so small a city. Many, consequently, are in great need of the commonest necessaries of life. It will require no more than a hint to this end to the liberal and kind hearted of our city, we feel confident, to cause a movement to be made in behalf of the unfortunate. A subscription can be started to-day, and by the boat which will leave for the Dalles to-morrow morning, there can be forwarded to proper agents there, for distribution among the destitute, money, provisions, clothing, or whatever else shall be donated. Say we will give something. Let some worthy citizen be leader in this good charity.

TERRITORIAL FAIR.—We have been handed by Mr. William Davidson, a circular containing the premium list of the second annual Territorial Fair of the Washington Territory A. M. and A. F. Society. The Fair will commence on Wednesday, September 20th, and continue through four days. Among the many premiums offered, is a special one for equestrianism: for the best lady equestrian, over 18 years, $15; and for the best lady rider under that age, $15. The Board of Directors, of whom O. P. Lacy is Secretary, in announcing this second annual Fair, desire and invite competition from Eastern Oregon, Northern Idaho and Washington Territory east of the mountains. The premium list as appears from the circular before us, is liberal, and all premiums will be paid in cash by the Society. The grounds are handsomely located, including in its limits a pleasant grove with a full supply of water, and in every way convenient for those who wish to camp out. An abundance of good grass and wood can also be procured without trouble.

DESTRUCTIVE FIRES.—In ordinary affairs it is said that "Misfortunes seldom, or never, come single handed." The recent sad lessons given in the way of destructive fires, seems to confirm the adage. Only last week a most calamitous conflagration visited the Dalles, destroying in two short hour's time, thousands of dollars worth of property, and swept away the homes of many. The dispatches of yesterday morning convey intelligence of two fires occurring in Salem and Oregon City, both on the same day, and attended with more or less destruction of property. It is to be trusted that useful lessons of precaution against the destructive element, may be drawn from these sad visitations. People are too apt to become careless, and to too lightly take the fact that "fire is a good servant but a very hard master," until they feel the force of his courage and are left to mourn over the loss of a comfortable home which has "vanished into thin air."

SUPPLY FAILING.—We have heard of several instances where the supply of water has failed, and hydrants refusing to flow which are situated on the second and third floors of buildings. This is only the case, however, in the immediate vicinity of where large brick buildings are in process of construction. The constant use of water in dampening brick and in the mixture of mortar, reduces the supply, and does not allow the water to attain any altitude so as to feed the hydrants placed higher than the ground.

DOWN RIVER NOTES.—The bark *Whistler* is still at the mouth of the Cowlitz loading.

The bark *Rival* is at Cementville loading with lumber, and was to have sailed yesterday.

The *Hattie Besse*, long over due, had not been seen off the bar up to Monday night.

Capt. Gray and George Warren, at Astoria, have made arrangement for the building of a light draught boat to run in the Young's river and Skippanon trade. Her machinery is already ordered.

ORGANIZATION OF A TURN-VEREIN.—In accordance with previous notice, a respectable number of young and athletic Germans met last evening at the German school house and adopted a Constitution and By-laws for a Turn-Verein in this city. After signing the same, the following gentlemen were elected as officers of the organization: C. A. Alisky, President; H. W. Dilg, Secretary; J. W. Shirott, Treas.; A. Meyer, 1st Leader; H. Kaiser, 2d Leader; F. Schultz, Steward.

VIOLATING THE SABBATH.—The well known circus performer, Omar Kingsley, was lately arrested in San Francisco, and his entire troup of performers were presented on a charge of misdemeanor by violating the Sunday law in giving a performance on Sabbath evening. Kingsley plead guilty, was fined $20, and the complaints against the other defendants were dismissed. Kingsley was fined $20 additional on another charge of the same nature.

FIRE IN THE WOODS.—A heavy fire was raging last evening among the timber north and east of the depot. The whole canopy of the heavens was lighted up by its lurid glare. The fire devoured the dry undergrowth, and climbed to the tops of some of the tallest trees, and in the gathering gloom of night resembled miniature lighthouses amidst the dark background of forest. The dull roar of the flames could be heard plainly on this side throughout the first part of the night.

FOR EXHIBITION.—Mr. C. W. Dean, real estate broker, who intends to visit Chicago soon, desires to take back for exhibition all the specimens of Oregon productions which he can procure. If obtainable he proposes to carry away a block of wood, sawed from "son of the forest," about nine inches in thickness and from six to nine feet in diameter. This will be placed in some conspicuous place at the post office in the "Queen City" and appropriately labeled.

RUMORED.—It is rumored on the streets that the People's Transportation Company have sold out their entire interest in the line. The purchaser is not known. We only give the report for what it is worth, knowing nothing definitely as to its authenticity.

U. S. CIRCUIT COURT—DEADY, J.—Monday, August 21, 1871.—John Bowman vs. Ben. Holladay et al.; hearing on demurrer to replication continued to Monday next.

Lamb et al. vs. G. W. Vaughn; order to open depositions.

GOOD TIME.—The last voyage of the *John L. Stephens* was made from San Francisco to this port in 59 hours. The Columbia Bar was reached in 45 hours.

IN CHAMBERS.—A Court in Chambers will be held to-day at 1 o'clock before Judge Upton. Some important business will be disposed of.

FOR SAN FRANCISCO.—The steamship *John L. Stephens* will sail for the above port to-morrow evening at 7 o'clock.

GEO. S. WRIGHT.—This steam propeller is announced to leave for Sitka on Friday, September 1st, at 7 o'clock P. M.

ADDITIONAL BOOKS.—The following new books, received by last steamer, have just been added to the Portland Library: The American Cardinal, a novel. Over the Ocean, or Sights and Scenes in Foreign Lands, by Curtis Guild, editor *Boston Commercial Bulletin*. Lay Sermons, Addresses and Reviews, by Thomas Henry Huxley, L. L. D. F. R. Light and Electricity, by J. Tyndall, L. L. D., F. R. S.

CORPORATIVE COURTESIES.—We are requested to state that the several fire companies of this city desire to express their thanks to the Oregon and California Railroad, Oregon Steam Navigation and People's Transportation Companies, for their courtesy in reducing the fare one half to accommodate the various delegations of firemen who have accepted the invitation to be in attendance at the Annual Parade in Portland on the 4th of September.

WATER STREET.—Piles are being driven along this street, in East Portland, on which will be placed a bridge above the reach of water at its highest stage. This trestle work will extend from A street to U, parallel with the railroad bridge, and between it and the river. Improvements are going on rapidly on L and U streets. The bridge on the latter street has been framed and planked from the brow of the hill to the railroad track.

HELD TO ANSWER.—Mr. J. Johns was arrested yesterday on assaulting a Mr. George Cousins with a deadly weapon. The altercation grew out of a difficulty between the parties in regard to some tan bark, when it appears that Johns proceeded to "tan" the hide of his opponent by the use of a deadly weapon. After an investigation of the case before Justice Moreland, Johns was held to answer in the sum of $300.

GOING THE ROUNDS.—C. H. Miller (Joaquin) is being lionised by the Eastern press, and anecdotes and biographical sketches are circulated without number concerning this "wild son of the Pacific." A correspondent of the New York *Evening Post* devotes several columns to a biography, with notes, comments and criticisms, on the poetry of Miller. He is expected to visit this State before long.

TO ENLARGE.—We are in receipt of a letter from Coll Vanclave, editor and proprietor of the Albany *Register*, in which he states that it is the intention to enlarge that paper soon. The *Register* must be crawling into public favor fast, or has a redundance of "circulating medium," as the intended enlargement will be the second one since the establishment of that paper.

POLICE COURT.—Eight cases were disposed of before this tribunal yesterday morning. Five persons for drunk and disorderly conduct, were fined or sent to jail. Two persons arrested on the charge of carrying concealed weapons, were fined and discharged. One fellow, for larceny, was committed to jail for the period of thirty days.

MISSIONARY CONCERT.—The pupils of the M. E. Sabbath School in East Portland will hold a Missionary Concert at the church on next Sunday afternoon. The exercises will consist of music, recitations from Scripture, declamations, etc. A collection will be taken up at the conclusion which will be appropriated to the missionary cause.

CONCERT AND FESTIVAL.—A festival, ice cream, etc., and concert will be given at the East Portland Odd Fellows' Hall this evening, under the auspices of the St. David's Episcopal Church. The proceeds are to be applied toward the purchase of a Sunday School library.

FOR SALEM.—The Nathan Juvenile Troup went to Salem yesterday. They will open there this evening. It is the present intention of the management to play a brief engagement at Salem and then go to Victoria, after which they will return to this State in time to play at the State Fair during its continuance.

WHARF.—A portion of the old wharf of Couch & Flanders is unsafe for even footmen, from the damages resulting from the late high water. Workmen have commenced to tear away the rubbish, preparatory to building a new wharf.

MEETING.—There will be an adjourned meeting of the Committee appointed to make arrangements for the celebration of the Firemen's Anniversary, on to-morrow evening to further plans.

N. P. R. R.—There are employed on this road about 1,000 men. A few more hundred who are willing to labor, can find employment by applying to the contractor, J. B. Montgomery.

ALMATIA.—This vessel was towed down the river by the *Josie McNear* last evening. A cargo for San Francisco will be received at some point down the river.

POSTPONED.—The steamship *Oriflamme* will not leave San Francisco for this port as usual on to-morrow. The time of her postponement is not announced.

SECOND STORY.—The masonry work of the second story of the new Masonic Hall, corner of Third and Alder streets, has been completed.

RINK.—This popular place of amusement was well attended last night. A band of music was in attendance, as usual.

SAINT MARY'S ACADEMY.—Studies will be resumed at this institution on next Monday, the 28th inst.

ARRIVAL OF THE CONSTANTINE.

The steamer *Constantine* arrived at 1 o'clock this morning from San Francisco. She brings the subjoined list of passengers:

BUSINESS NOTICES.

BARKER'S PANORAMA.—An entertainment will be given at Oro Fino Theater on Friday evening, the 25th inst. Barker's Panorama will exhibit some fine views painted in oil colors. Among the many scenes will be those of San Francisco, Golden Gate, Yosemite Valley, Columbia river bar, Astoria, mouth of the Wallamet, Portland, Mount Hood, Seattle and bay, Victoria, Puget Sound and numerous other places of interest and note. Each view will be 12 by 18 feet, and will be minutely described by the artist.

DR. ABORN will remain in Portland a few weeks longer, so as to afford all who are afflicted an opportunity of availing themselves of his skill and treatment.

In many cases the Doctor's treatment or operations act as thorough as magic. As is well known, he frequently effects a cure on his patients before they leave his operating room. In no case does the Doctor subject his patients to torture or the least pain. In all cases that have been given up as hopeless, should make one more trial for the restoration of their health while Dr. Aborn is in this city, practicing at the St. Charles Hotel.

DISCHARGED FROM CUSTODY.—Geo. Robinson, who was arrested a few days since at Albany, on the charge of selling liquor to Indians, and brought to this city, was examined before the United States Commissioner, R. Wilcox on Monday last, and released from custody. The evidence was insufficient to bind the defendant over.

DREDGING.—An immensely large scoop, to be used in conjunction with a dredger, was taken up the river this morning. Dredging will soon be commenced in several places in the channel of the Willamette, above Albany, to remove some of the obstructions to navigation.

WHEAT.—A large quantity of wheat is lying on the O. S. N. Co.'s wharf. It came from Walla Walla valley, and is to be shipped for England on board the *Skiddaw*.

ACCEPTED.—The Vancouver Fire Department has accepted the invitation to be present and participate at the Firemen's Parade on the 4th of next month.

THE CIRCUS.—Mlle. Jeal's Circus Troupe, returned to this city last evening from Walla Walla. They will give a performance this evening.

LEVELED.—The yard at the rear of Engine Company No. 3's house is being leveled to the established grade of the streets.

REHEARSING.—The Philharmonic Musical Association will commence their regular rehearsals about the middle of September.

SCHOOL OPENING.—Mrs. Mary Simmons' Private School, corner Third and Main streets, will open Monday, 21st inst. Pupils will be taken during the term.

TO CARPENTERS AND BUILDERS.—G. L. Hibbard & Co. have on hand and for sale at very reasonable prices, a large lot of Doors, Sashes and Windows of the best quality. They also have a fine lot of Machine Oils, Wagon Timber, Flour and Family Groceries. Persons wishing the above articles will do well to give them a call, corner of Alder and Front streets.

Medical Mistakes.

It took the faculty about a thousand years to discover that the best way to cure disease was not to render the patient too weak to contend with it. Within the last twenty years, however, the whole system of medical practice has been changed for the better. In diseases or complaints caused by excessive heat, for instance, the doctors no longer recommend the reduction of the invalid's strength by prostrating medicines. The vast success which has attended the use of Hostetter's Stomach Bitters as a remedy for debility, has given even the most prejudiced members of the old school an insight into the only true and rational theory of cure. Cantharides, calomel, and overpowering doses of opium, are now among the obsolete nostrums of another age. The lancet, once as much the legitimate weapon of the physician as the sword is of the soldier, is seldom drawn from its case. The principle of life is no longer drained from the veins by the quart, and water-gruel for the strengthless invalid has ceased to be considered appropriate diet. Vigor is the motto of the rational member of the profession, and they understand, at last, the value of a sterling vegetable tonic. So also, with the people at large, and without consulting medical men at all, they have adopted the bitters as a household remedy, thereby economizing both cash and health.

Note the fact, that Hostetter's Stomach Bitters is sold in bottles only, never in bulk, and that the abortions springing up in various parts of the country, and sometimes offered as substitutes for the great national specific, are all utterly worthless.

FOREIGN NOTES.

Following are the taxpayers' nominations in San Francisco: Mayor, William Alvord; Sheriff, James Adams; County Clerk, William Harney; County Recorder, W. L. Higgins; Treasurer, John A. Baum; Assessor, Alexander Badlam. The ticket is a strong one, and it is believed will be elected.

The Ost-see Gazette says, a new step has just been made toward the Russianizing of the city of Warsaw. The head of the police, Warsaw, "has recommended"—which means "has ordered"—the owners of house property to produce their register-books of outgoing and incoming tenants, for which they are by law responsible, to the police, in the Russian language.

La France says that the sub-commission on military recruiting has finished its work. According to article 1, the military service is obligatory for all Frenchmen from twenty to forty years. Article 2 fixes the length of service in the army at four years. Three categories of reserves are established, the first of five, the second of three, and the third of eight years' service. The executive power can mobilize the army and the first category of the reserve by a simple decree. To mobilize the last two categories a law is required.

A German paper, the *Volkstaat*, observes that there is an unwillingness in influential circles to allow the full extent of the losses in the late war to transpire. A semi-official corroboration now suddenly appears of the worst rumors which were circulated in process of time. The Central Bureau of Information in Berlin, under the inspection of the highest military authorities, has published a report of its work, with interesting statistical figures. It appears from the report that the institution has, within the space of twelve months, authenticated 833,000 sick and wounded cases, and that of these only 76,000 belonged to the French, the remaining 550,000 to the German army. The circumstances that only 46,000 of these were South Germans, and that nearly 508,000 were North Germans, shows by the disproportion of the numbers that the Bureau had been occupied with the North German Army. The frightful figures, which besides make no claim to [illegible], are, according to this, far below the truth.

POLITICAL NOTES.

The Cincinnati *Enquirer* (Dem.) says that the Democratic candidates will not be supported by any respectable number of Germans at the ensuing election.

A Democratic meeting in New York on the 15th inst. declared that [illegible] is responsible for the bloodshed on the 12th of July, and it was resolved to oppose him for election.

The San Francisco [illegible] out from among the old traps stowed away in the Democratic garret a series of resolutions passed by the Democratic Legislature of 1855, requesting the Government to appoint a citizen of California to the office of Commissioner to China, in view of the "intermingling" of their people with ours, and "to open the way to a free intercourse with the secluded nations of Asia."

CURRENT NOTES.

During the month of July the Dead Letter Office at Washington received 527,421 letters, of which [illegible] contained [illegible], amounting to $3,023 85; 2,474 contained photographs, and 3,348 enclosed drafts or papers of value.

The *Opinion Nationale* newspaper of Paris is not always so ill-informed as it lately has been. A recent article announces the death from the effects of a pistol shot wound, of Mr. Fisk, "the American nabob, worth $45,000,000." He was killed [illegible] while witnessing a circus [illegible] the investigation. His death is an immense loss for the progress of musical art in the United States [illegible] "wife of Miss Nellie [illegible], [illegible] to America by a blank contract, which a *dico* filled up, she demanded [illegible] $30,000 in gold for 100 representations."

[illegible]

[illegible] Evening, August 21, 1871.

[illegible] A. M. at their sales rooms of general merchandise.

Hewett, Flowerdew & Co. have chartered the bark [illegible] to load wheat for England. They receive 800 tons from Walla Walla and the balance from this valley. Their wheat is already, so we are informed, engaged.

The barks *Almatia*, *Wm. Fisher*, *Garibaldi* and *Dorothy* [illegible]. The steamer *John L. Stephens* sails on Thursday evening at 7 o'clock, for San Francisco.

[illegible] Secretary Boutwell has made arrangements with Jay Cooke, McCulloch & Co. of London, to negotiate the remainder of the bonds offered in February last, being about $130,000,000. $60,000,000 is reserved for 60 days so as to give the National Banks an opportunity to subscribe. A telegram from London under date of August 21st, states that offers for over $20,000,000 worth of bonds were received by Messrs. Jay Cooke, McCulloch & Co before [illegible]. The bonds in Stock Exchange were quoted at from 1¼@1¾ per cent. premium. We have been informed that the National Bank in this city is [illegible] to purchase some of the bonds reserved for the [illegible] of the National Banks. The Secretary of the Treasury will commence First of September the redemption of the 5-20's of 1862.

[illegible] glean the following receipts of [illegible] from 1st of January to the 31st of December, at Chicago, Milwaukee, Toledo, Detroit and Cleveland:

Merchants' Report.

FLOUR—[illegible] doing to-day. Market unchanged. Commercial Mills started up on new wheat.

WHEAT—We are informed that prices have settled at the following figures per bushel: At Salem and below, 95c; Albany and below, 90c; Harrisburg, 85c. The receipts are [illegible] than at any previous time this [illegible].

[illegible]—We note sales at [illegible] doz.

BRAN—We note sales to-day in lots at $25 ton.

MIDDLINGS—Sales to-day at $40 ton.

HIDES—One or two small lots sold to-day at from 10@11c for dry.

CLARET WINE—L. S. Rosenbaum & Co's importation from France is quoted at $4 50@7@8 case.

RICE—Advices from San Francisco state market unsettled, with nearly all stock in first hands—in hands of Chinese importers, who are asking an advance on former rates. The price for importation per *Garibaldi* we are unable to learn definitely, but it is quotable at 7¼@8c. It is coming out in beautiful condition.

PLOWS—The market has advanced on ruling prices laid down, owing to the difference in gold then and now. We are unable to give prices now but will in two or three days.

CORDAGE—We note the advance in San Francisco of rope 2½c @ lb. The price in New York is 19¼@20½c @ lb for 12, 9 and 6 thread Manilla, 19¾c for bay rope.

GLASS—An advance of 10@15 per cent. in French plate is expected soon.

SOAP—Is held very firm at former quotations, with tendency to advance, owing to rise in tallow.

PETROLEUM—The business transacted East with Europe has been large, and, by annexed table, is increasing:

	1871.	1870.
Exported since 1st January— From New York....gall's	50,702,264	45,826,930
other ports	31,077,407	26,550,763
Total....gall's	81,779,671	72,377,693
Same time 1869		51,925,810
1868		52,641,523

There are loading and to load in New York, 20 vessels with 99,560 bbls refined, 6 with 48,000 cases refined, 2 with 9,100 bbls crude, 7 with 10,400 bbls naptha. In Philadelphia 22 vessels with 88,650 bbls refined, 1 with 1,300 bbls naptha. In Baltimore 2 vessels with 9,000 bbls refined. Late advices state that market for crude and also for refined closes dull, with a dull future, and with a weak market ruling.

TALLOW—Price firm at 9c for choice; being a rise of ¼c on former quotations.

CODFISH—The *Flying Mist* has arrived in San Francisco from Choumagin Island, with 35,000 of the new catch. She reports the *Daisy* en route for same port with 15,000, and the *Rescue* and *Scotland*, as having caught the former 18,000 and the latter 22,000.

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES. NEW REMEDIES.

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation they languish until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical means, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances—a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and unerring mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to his patients a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became tired of work at their trades. Some are then the shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look in the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry. It will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them, until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. JAS. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco. Post Office Box 1,957. REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. Gibbon that they read his advertisement in the *Daily Oregonian*. jy84pt

TARRANT'S SELTZER APERIENT

Sects and Creeds differ, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no remedy than TARRANT'S EFFERVESCENT SELTZER APERIENT. A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admiral remedy for all bilious complaints. Let there be no mistake. Be sure the genuine article only.

FOREIGN NOTES.

Following are the taxpayers' nominations in San Francisco: Mayor, William Alvord; Sheriff, James Adams; County Clerk, William Harney; County Recorder, W. L. Higgins; Treasurer, John A. Bauer; Assessor, Alexander Badlam. The ticket is a strong one, and it is believed will be elected.

The Ost-see Gazette says, a new step has just been made toward the Russianizing of the city of Warsaw. The head of the police, Warsaw, "has recommended"—which means "has ordered"—the owners of house property to produce their register books of outgoing and incoming tenants, for whom they are by law responsible to the police, in the Russian language.

La France says that the sub-commission on military recruiting has finished its work. According to article 1, the military service is obligatory for all Frenchmen from twenty to forty years of age. Article 2 fixes the length of service in the army at four years. Three categories of reserves are established, the first of five, the second of three, and the third of eight years' service. The executive power can mobilize the army and the first category of the reserve by a simple decree. To mobilize the last two categories a law is required.

A German paper, the *Volkstaat*, observes that there is an unwillingness in influential circles to allow the full extent of the losses in the late war to transpire. A semi-official corroboration now suddenly appears of the worst rumors which were circulated in process of time. The Central Bureau of Information in Berlin, under the inspection of the highest military authorities, has published a report of its work, with interesting statistical figures. It appears from the report that the institution has, within the space of twelve months, authenticated 633,000 sick and wounded cases, and that of these only 79,000 belonged to the French, the remaining 550,000 to the German army. The circumstances that only 46,060 of these were South Germans, and that nearly 508,000 were North Germans, shows by the disproportion of the numbers that the Bureau had been occupied with the North German Army. The frightful figures, which besides make no claim to be [illegible] are, according to this, far below the truth.

POLITICAL NOTES.

The Sacramento *Reporter* (Dem.) says that the Democratic candidates will not be supported by any respectable number of Germans at the ensuing election.

A Democratic [illegible] New York on the 17th inst [illegible] is responsible for the [illegible] July, and it will re[illegible] day since.

The [illegible] has [illegible] out from among the old [illegible] away in the Democratic garret a series of resolutions passed by the Democratic Legislature of 1852, requesting the Government to appoint a citizen of California to the office of Commissioner to China, in view of the "intermingling" of their people with ours, and to open the way to a free intercourse with the secluded nations of Asia."

CURRENT NOTES.

During the month of July, the Dead Letter Office at Washington received 337,421 letters, of which 1,820 contained money, amounting to $9,023.86; 2,474 contained photographs, and 3,348 inclosed drafts or papers of value.

The *Opinion Nationale* newspaper of Paris is not always so ill-informed as it lately has been. A recent article announces the death, from the effects of a pistol shot wound, of Mr. Fisk, "the American nabob, worth $45,000,000." He was killed in a duel, while [illegible] the Stage "demonstration." [illegible] death is an immense loss for the progress of musical art in the United States, for he was the impresario of Miss Neilson, whom he attracted to America by a blank contract, which a diva filled up, she demanding and getting $170,000 in gold for 100 representations.

Secretary Boutwell has made arrangements with Jay Cooke, McCulloch & Co. of London, to negotiate the remainder of the bonds offered in February last, being about $130,000,000. $60,000,000 is reserved for 30 days so as to give the National Banks an opportunity to subscribe. A telegram from London under date of August 21st, states that orders for over $40,000,000 worth of bonds were received by Messrs. Jay Cooke, McCulloch & Co. before [illegible] opened. The bonds in Stock Exchange were quoted at from 1¾ @ 1½ per cent. premium. We have been informed that the National Bank in this city has offered money to purchase some of the bonds reserved for the refusal of the National Banks. The Secretary of the Treasury will commence First of September the redemption of the bonds of 1862.

From the best source we glean the following receipts of [illegible] at the four years from 1st of January to the 31st of December, at Chicago, Milwaukee, Toledo, Detroit and Cleveland:

Merchandise Report.

FLOUR—Nothing doing to-day. Market unchanged. [illegible] Mills started up on new wheat.

WHEAT—We are informed that prices have settled at the following figures per bushel: At Salem and below, 95c; Albany and below, 90c; Harrisburg, 80c. The receipts are coming in freer than at any previous time this season.

EGGS—We note sales at 37@40c ₱ doz.

BRAN—We note sales to-day in lots at $25 ₱ ton.

MIDDLINGS—Sales to-day at $40 ₱ ton.

HIDES—One or two small lots sold to-day at from 10@11c for dry.

CLARET WINE—L. S. Rosenbaum & Co's importation from France is quoted at $4 50@7 00 ₱ case.

RICE—Advices from San Francisco state market unsettled, with nearly all stock in first hands—in hands of Chinese importers, who are asking an advance on former rates. The price for importation per *Garibaldi*, we are unable to learn definitely, but it is quotable at 7½@8c. It is coming out in beautiful condition.

PLOWS—The market has advanced on ruling prices made then, owing to the difference in gold then and now. We are unable to give prices now but will in two or three days.

CORDAGE—We note the advance in San Francisco of rope 2½c ₱ lb. The price in New York is 10½@20½c ₱ lb for 12, 9 and 6 thread Manilla; 10½c for bay rope.

GLASS—An advance of 10@15 per cent. in French plate is expected soon.

SOAP—Is held very firm at former quotations, with tendency to an advance, owing to rise in tallow.

PETROLEUM—The business transacted East with Europe has been large, and, by annexed table, is increasing:

	1871.	1870.
Exported since 1st January—		
From New York	gall's 50,702,264	45,826,930
other ports	31,077,407	26,550,763
Total	gall's 81,779,011	72,377,693
Same time 1869	gall's	54,025,576
1868		52,041,523

There are loading and to load in New York, 26 vessels with 60,500 bbls refined, 5 with 48,000 cases refined, 3 with 9,100 bbls crude, 7 with 10,400 bbls naptha. In Philadelphia 22 vessels with 88,650 bbls refined, 1 with 1,300 bbls naptha. In Baltimore 2 vessels with 9,000 bbls refined. Late advices state that market for crude and also for refined closes dull, with a dull future, and with a weak market ruling.

TALLOW—Price firm at 9c for choice; being a rise of ½c on former quotations.

CODFISH—The *Flying Mist* has arrived in San Francisco from Choumagin Island, with 85,000 of the new catch. She reports the *Daisy* en route for same port with 15,000, and the *Roscoe* and *Scotland* as having caught the former 18,000 and the latter 22,000.

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy too work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1853 and 1855. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them, until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco. Post Office Box 1,957. REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

Seeds and Creeds differ, but there are no dissenters from the general principle, that a great medicine is a great blessing. We have many of these blessings, but among them all, in the province to which it belongs, no greater than

TARRANT'S EFFERVESCENT SELTZER APERIENT.

A column would not suffice to enumerate the ailments for which it is prescribed by physicians of the highest standing. It does not belong to the class derisively termed patent medicines, but is an article based on scientific analysis, and will stand the test of the sharpest and most rigid medical criticism as a cathartic, a stomachic, an anti-febrile preparation, and an admirable remedy for all bilious complaints. Let there be no mistake. Secure the genuine article only.
